Introduction

Lifelong student of coaching and the game of floorball. Passionate learner.

« Floorball is not about being in a good or bad physical shape, it is about being adapted to a way of playing. »

I'm currently working as a head coach of NST Lappeenranta's mens first team in Divari (2nd tier). I am heading to my second season with the team and our goal is to play good floorball, explore new training methodologies, develop as persons, as players (and coaches) and eventually promote to Salibandyliiga.

My most important values as a coach are honesty, openness and very high work ethic. I believe that as floorball is above all a team sport, the team will always come first with no exceptions – coaches included. I want my teams to play proactive floorball with very high emphasis on strong communication and teamwork. Floorball is a game you play with your head, the hands and the legs are tools.

Floorball experience
